

TRANSFORMING SPACES WITH CUTTING-EDGE LED SOLUTIONS

Illuminating Innovation: The IINNO Lighting Advantage

Innovative Lighting Solutions by the IINNO Group

AN INTRODUCTION

Who we are.

Great Products Build Great Companies. Based in Hong Kong, with a team of over 250 innovators, Intelligent Innovations (IINNO Ltd) stands as a global leader in the LED lighting industry. We specialize in custom-made industrial lighting and white label solutions for retail brands, offering OEM/ODM superior quality, energy-efficient LED lighting products.

OUR GOAL is to unveil possibilities for customers by showcasing the available innovations. We ensure all products adhere to international standards, foster sustainable relationships, focus on clean energy solutions, inspire staff through research and development, and strive to be leaders in lighting technology and LED innovation.

AN INTRODUCTION

**We illuminate
the world with
brilliance and
innovation.**

The IINNO Vision

We envision a world aglow with possibilities, where lighting transcends the ordinary to inspire creativity, enhance environments, and elevate experiences.

The IINNO Mission

Our mission is to lead the way in lighting innovation, delivering exceptional products and services that illuminate spaces and enrich lives.

The IINNO Code of Ethics

At IINNO Lighting, integrity, transparency, and accountability are paramount. We uphold rigorous quality standards, value our employees, deliver exceptional service, and foster sustainable supplier relationships, ensuring ethical practices at every level.

AN INTRODUCTION

“At IINNO Ltd, we pride ourselves on our honest and ethical approach to business, applying these values with unwavering commitment and consistency. We strive to operate IINNO Ltd in a manner that is satisfying and rewarding for both our staff and customers alike.” - CEO & Founder George Saridakis

KEY SUCCESS FACTORS

Our Offering

At IINNO Lighting, our service offering is underpinned by a steadfast commitment to integrity and genuine care for our customers. We recognize the invaluable nature of client service and loyalty, which forms the cornerstone of our operations.

Represented in 30 countries, with over 2000 proud collaborators, IINNO Ltd boasts years of expertise in LED lighting. We work closely with contractors and distributors, offering professional consulting services of the highest caliber. Customers have the flexibility to procure fully packaged products directly from IINNO or through our extensive network of international distributors.

We invest in partnerships with customers and developers who share our vision for clean energy and LED innovation. Our investment possibilities include direct shareholding options coupled with exclusive supply contracts as well as collaborative development and problem solving.

KEY SUCCESS FACTORS

Our competitive edge.

We believe in turning challenges into opportunities. Our flexibility and commitment to innovation empower us to lead in the LED lighting industry. Collaborating with leading LED manufacturing factories in China, we offer a vast array of products and services, tailored to meet diverse customer needs. From rigorous quality testing to specialized OEM/ODM solutions, we deliver excellence in every project, serving retail chains, commercial developments, and renowned brands worldwide.

Location: Strategically headquartered in Hong Kong and our manufacturing facilities in China, ensuring excellent product quality control and superior customer service.

R&D: Committed to continuous research, development, and innovation, keeping us at the forefront of LED technologies.

Quality: Utilizing only the highest-quality manufacturing facilities.

Skills: Employing a team of motivated, highly trained professionals, guaranteeing premium workmanship.

KEY SUCCESS FACTORS

Why China?

Why Manufacture in China?

China stands as the global leader in LED lighting manufacturing. With a robust supply chain, substantial government backing, and favorable cost factors including low overheads and labor rates, it offers unparalleled advantages. However, selecting manufacturers diligently is imperative, as reliability varies, and poor choices may entail risks.

Benefiting from over a decade of presence in China, IINNO LTD enjoys enduring partnerships with premier manufacturers, guaranteeing top-tier products and services.

CUSTOMER SERVICE EXCELLENCE

Customer-Centric Solutions

CUSTOMIZED LED LIGHTING SOLUTIONS:

Tailored to specific lighting plans.

CONSULTATIVE APPROACH:

Through training sessions, clients stay informed about the latest product and industry developments.

BUDGET-FRIENDLY SOLUTIONS:

Customized to meet individual needs.

COMPREHENSIVE ROI CALCULATIONS:

Providing clarity on investment returns.

DIALUX AND RELUX SOFTWARE:

Offering visualization and calculation of LED lighting requirements for indoor and outdoor applications.

R&D & INNOVATION

LED Applications of the Future

The LED lighting market is poised for rapid expansion in the years ahead as governments, corporations, developers, and consumers increasingly adopt cost and energy-efficient systems. LED options are poised to outshine traditional lighting markets, and here's why:

- ✓ **MERCURY-FREE:** Unlike traditional lamps, LED lamps contain no mercury.
- ✓ **LONGEVITY:** Lasting up to 50,000 hours, emitting lower carbon emissions.
- ✓ **ENVIRONMENTAL BENEFITS:** Emitting less heat and requiring less power, reducing greenhouse gas emissions. Given that lighting consumes 20% of the world's electricity, LED lights are pivotal for preserving Earth's resources.
- ✓ **INSTANT ILLUMINATION:** Turns on to full brightness instantly, enhancing convenience and efficiency.
- ✓ **ENERGY EFFICIENCY:** Up to 80% more efficient than incandescent and fluorescent lamps.
- ✓ **CUSTOMIZATION & CONTROL:** Highly customizable and digitally controllable.
- ✓ **DIRECTIONAL LIGHT:** Emitting light in specific directions reduces energy waste.
- ✓ **LOW / NO HEAT:** Generates 90% less heat than incandescent lamps. 95% of LED energy is converted to light and only 5% into heat.

PRODUCT PORTFOLIO

LED Illuminating Every Industry

Discover how our LED lighting solutions are reshaping infrastructure and construction projects. From urban landscapes to architectural marvels, we specialize in providing cutting-edge illumination tailored to your needs. With a focus on quality, innovation, and sustainability, our solutions set new standards in safety, creativity, and efficiency. Architects and developers rely on us to create captivating environments that blend functionality with aesthetic appeal. Join us as we illuminate the path towards a brighter, more sustainable future for your projects.

Innovative Lighting Solutions by the IINNO Group

PRODUCT PORTFOLIO

Architecture & Interior Design

Celebrating the fusion of artistry and functionality, IINNO Ltd illuminates architectural marvels and interior spaces with unparalleled brilliance.

From accentuating the sleek contours of contemporary skyscrapers to creating captivating lighting installations within luxurious interiors, our LED solutions redefine the ambiance of every space.

In close collaboration with visionary architects and interior designers, we deliver lighting innovations that transcend traditional boundaries. Our products adorn iconic structures and interior spaces, elevating aesthetics while ensuring energy efficiency and sustainability.

Committed to pushing the boundaries of lighting design, IINNO Ltd illuminates the path towards a future where architecture and interior design seamlessly merge with innovation and style.

PRODUCT PORTFOLIO

Infrastructure

IINNO Ltd stands at the forefront of illuminating vast cityscapes and expansive infrastructural projects. From towering floodlights that cast a brilliant glow over sports arenas to streetlights that line bustling city streets with energy-efficient brilliance, our LED lighting solutions redefine urban landscapes.

Partnering with leading municipalities and architectural firms, we bring innovation and reliability to every project. Our lighting solutions grace iconic landmarks, ensuring safety, security, and sustainability for millions.

With a commitment to quality and a dedication to pushing the boundaries of lighting technology, IINNO Ltd illuminates the future of urban environments.

CUSTOMER SERVICE EXCELLENCE

Quality Assurance

ASSISTING CUSTOMERS:

Overcoming challenges associated with long-distance production.

ENFORCING QUALITY CHECKS:

Continuously inspecting manufacturing procedures and production conditions.

ENSURING REGULATORY COMPLIANCE:

Products compliant with all applicable EU and US safety regulations and standards.

IMPLEMENTING A QUALITY MANAGEMENT SYSTEM (QMS):

Observing and checking product quality at every stage of production.

ENSURING COMPONENT QUALITY:

Choosing reliable subcontractors aligning with quality requirements.
